MEMORANDUM FOR GENERAL CABELL, CIA

Subject: Secure Telephone for the Joint Reconnaissance Center

Reference: J3M-585-61 dated 24 July 1961

1. As mentioned in referenced memorandum, personnel of your Operations Center and the Joint Reconnaissance Center have been investigating means for providing a timely secure communications capability between the two centers.

2. It is believed that the installation of a secure telephone drop on the Central Intelligence Agency "Red Telephone" system will provide the required capability. The present teletype system will be required for transmission of detailed data for record.

3. I recommend that action be taken to allocate a drop on the CIA Secure Telephone Net to the Joint Reconnaissance Center.

FRED M. DEAN
Major General, USAF
Director for Operations
